

Ensto Tupa panel heaters

Peta

Peta panel heaters meet the Ecodesign requirements. The new heaters are equipped with intelligent thermostats (6 - 30°C) that can be controlled manually or with the Ensto Heat Control App (Android and iOS). The Ensto Heat Control application permits calendar control, boost and holiday function, and also the monitoring of heating consumption. Slave control. Max load 1900W (master + slave). Double insulated structure. Height 200 or 400mm, surface 80 mm from the wall. IP20. The heater's stand-by consumption is <0.3W.
